Why Do We Go to the Movies?

Why do we go to the movies? What is it about a motion picture that makes us either love it or hate it?

Most everyone would agree that we go to the movies to be entertained. The word *entertain* comes from the Latin word that means *to hold*. A good movie or one that we like holds our attention.

Movies hold our attention for many reasons. They may hold our attention because they are humorous. As we watch these movies, our sides are splitting from laughter.

Some movies have a more somber nature. These movies do not hold our attention* because they are funny and make us laugh. Instead, they hold our attention because they make us think. There are movies that provide total escape from the stresses of the day. Movies in which people are singing and dancing make us forget our worries and our cares. People leave these movies with a spring in their steps or a song in their hearts.

Some movies weave such detailed stories or present such interesting actors we become spellbound. Our full attention is on the story or the actor.

If a movie holds our attention, we tend to love it. If a movie fails to hold our attention, we don't like it. Movie-goers spend a tremendous amount of money each year going to movies. It seems safe to say that most movies do entertain us in one way or another.
